Seward Park Vegetation Management Plan

Outstanding Trees

TREE#	LOCATION	SPECIES	COMMON NAME	HEALTH	ACTION	COMMENTS	DESCRIPTION
1	westside of park along trail	<i>Catalpa bignonioides</i>	Southern Catalpa	good	no action	upper canopy flowers fragerance	A group of six, on both sides of the perimeter road
2	westside of park forestside of trail	<i>Malus fusca</i>	Pacific Crabapple	poor	no action	native fruit	Seward Park's largest; native; leaning almost horizontally in an old orchard site
3	westside of park waterside of trail	<i>Crataegus suksdorfii</i>	Shortspine Black Hawthorn	good	maintain	ONE OF TWO SPP IN PARK	Seward Park's largest; native (specimens of C. Douglasii are also native in the park)
4	westside of park at waterline	<i>Prunus x yedoensis</i>	Yoshino Cherry	has tent catapillars	no action	TENT CATAPILLERS	A waterside multistemmed specimen is noteworthy for being wild
5	westside of spinetrail at 80M from perimeter rd	<i>Sequoia sempervirens</i>	Coastal Redwood		no action	GROVE APPROX 1ACRE	Several in a mixed grove of native & planted trees
6	NEXT TO 5	<i>Juglans nigra</i>	Black Walnut		no action	SAME AS 5	Several in a mixed grove of native & planted trees
7	IN GROVE WITH 5 6 8 31	<i>Betula pubescens</i>	Downy Birch		no action	SAME AS 5	Several in a mixed grove of native & planted trees; likely Seattle's tallest
8	IN GROVE WITH 5, 6, 31, 7	<i>Pinus sylvestris</i>	Scots Pine	good	no action	several specimen are in a grove with #5	Several in a mixed grove of native & planted trees; likely Seattle's tallest

TREE#	LOCATION	SPECIES	COMMON NAME	HEALTH	ACTION	COMMENTS	DESCRIPTION
9	immediatly off trail	<i>Pseudotsuga menziesii</i>	Douglas Fir	good	maintain	Seattle Heritage Tree	Seward Park's largest; native; an old-growth Seattle Heritage Tree
10	FOREST	<i>Taxus brevifolia</i>	Pacific Yew		no action	DEAD	Dead; Seward Park's largest; native; old-growth; cited in Champion Trees of Washington State
11	FOREST	<i>Thuja plicata</i>	Western Red Cedar		monitor	BURN SCARRED	A fire-hollowed old-growth native whose trunk one can walk through
12	forestsides of perimeter roadway	<i>Sambucus cerulea</i>	Blue Elderberry	poor	maintain/ suggest designating a significant shrub list and including this and similar plants on it	cut to ground in past	Seward Park's only specimen; a very rare native species
13	INSIDE FISHERY, IN FRONT OF SMALL HOUSE	<i>Taxus brevifolia</i>	Pacific Yew	good	maintain	FEMALE	Seward Park's largest; native; old-growth; leaning; female
14	INSIDE FISHERY, NEAR LARGER HOUSE	<i>Sorbus aucuparia</i>	European Mountain Ash	good	remove	GROWING AT BASE OF CONIFER	Wild; likely Seattle's tallest, estimated close to 70 feet high
15	INSIDE FISHERY AT PED ENTRANCE	<i>Juniperus squamata</i> var. <i>Fargesii</i>	Farge's Weeping Juniper	crown_dieback	maintain	NONE	Seward Park's only one of a Chinese species extremely rare in Seattle; planted in 1930s
16	AT FISHERY SPILLWAY	<i>Cedrus atlantica</i> f. <i>glauca</i>	Blue Atlas Cedar		maintain	NONE	A landmark specimen planted in the 1930s

TREE#	LOCATION	SPECIES	COMMON NAME	HEALTH	ACTION	COMMENTS	DESCRIPTION
17	EASTSIDE OF PARK AT WATERLINE	<i>Salix eriocephala</i> spp. <i>mackenzieana</i>	Mackenzie Willow		monitor	MALE	Seward Park's only one of a rare native; male; shrubby; at lake edge
18	located in bulkhead eastside of park	<i>Betula papyrifera</i>	Paper Birch	good	monitor		Seward Park's only wild tree of a rare NW native
19	Westside of Amphitheater	<i>Quercus aliena</i> var. <i>acuteserrata</i>	Oriental White Oak	good	maintain	in border planting with other trees, hidden	Seward Park's only one of a E Asian species extremely rare in Seattle
20	IN FOREST, 2 LEADERS, MISSING ONE	<i>Arbutus menziesii</i>	Madrona	fair	monitor		Cited as the tallest (111' 1987) in Champion Trees of Washington State
21	NORTHSIDE OF ROAD AT FOREST EDGE	<i>Abies grandis</i>	Grand Fir	good	no action		Seward Park's largest; native; one of very few present
22	ON HILLSIDE ABOVE ROAD	<i>Arbutus menziesii</i>	Madrona	good	maintain		Cited as one of State's largest in Champion Trees of Washington State
23	45FEET SOUTH OF GPS POINT EAST OF SHELTER 6	<i>Pinus tabulaeformis</i> (<i>tabuliformis</i>)	Chinese Pine		monitor	SEVERAL IN MEADOW AND FOREST TO NORTH	An uncommon if not rare tree in Seattle; several here; one the tallest (60' +) in the city
24	westside of main road to upper picnic areas	<i>Malus x micromalus</i>	Kaido Crabapple	good	monitor	5 trees	Seward Park has five in a grove; they are not notably large or rare in Seattle

TREE#	LOCATION	SPECIES	COMMON NAME	HEALTH	ACTION	COMMENTS	DESCRIPTION
25	near entrance	<i>Juniperus chinensis</i> 'Foemina' (or 'Oblonga')	Chinese Juniper	good	monitor		Seward Park's only one of a E Asian species; among Seattle's largest
26	eastside of entry garden	<i>Corylus Avellana</i> 'Contorta'	Contorted Hazel	good	monitor		Seward Park's only one; among Seattle's largest
27	eastside of entry garden	<i>Betula pendula</i> 'Youngii'	Young's Weeping Birch	good	monitor		Seward Park's only one; among Seattle's largest
28	southwest side of entry garden	<i>Chamaecyparis pisifera</i> 'Filifera'	Thread Sawara Cypress	good	monitor	grouped with 6 trees of same species	One of about half a dozen together; unusually large
29	near tennis courts	<i>Ulmus glabra</i>	Wych Elm	good	add to dutch elm disease list, inoculate		One of only 5 known in Seattle; it should be inoculated against DED
30	northeast of entrance	<i>Malus x robusta</i>	Cherry Crabapple	good	no action	2 trees, Part of Lk.Wa. Blvd, relates to entrance	Two are the only Seward Park specimens, in a prominent site on the blvd.
31	IN GROVE WITH 5	<i>Sassafras albidum</i>	Sassafras		no action	SAME AS 5	Washington State's tallest; in a mixed grove of native & planted trees
32	grove with 5 mature plants	<i>Rhododendron</i>	Pacific Rhododendron		monitor/ suggest creating a separate significant plant community list for areas such as this	LOCATED IN SUITABLE RESTORATION GAP	

TREE#	LOCATION	SPECIES	COMMON NAME	HEALTH	ACTION	COMMENTS	DESCRIPTION
33	near roadway by entrance to spine trail	<i>Arbutus menziesii</i>	Madrone	good	maintain	tree has an appealing structure and good placement	
34	near water in between beach restoration sites	<i>Salix babylonica</i>	Weeping Willow	good	no action	children use tree for play and shade	

*Outstanding tree inventory was completed in July 2004 by Arthur Lee Jacobson and Peter Noonan

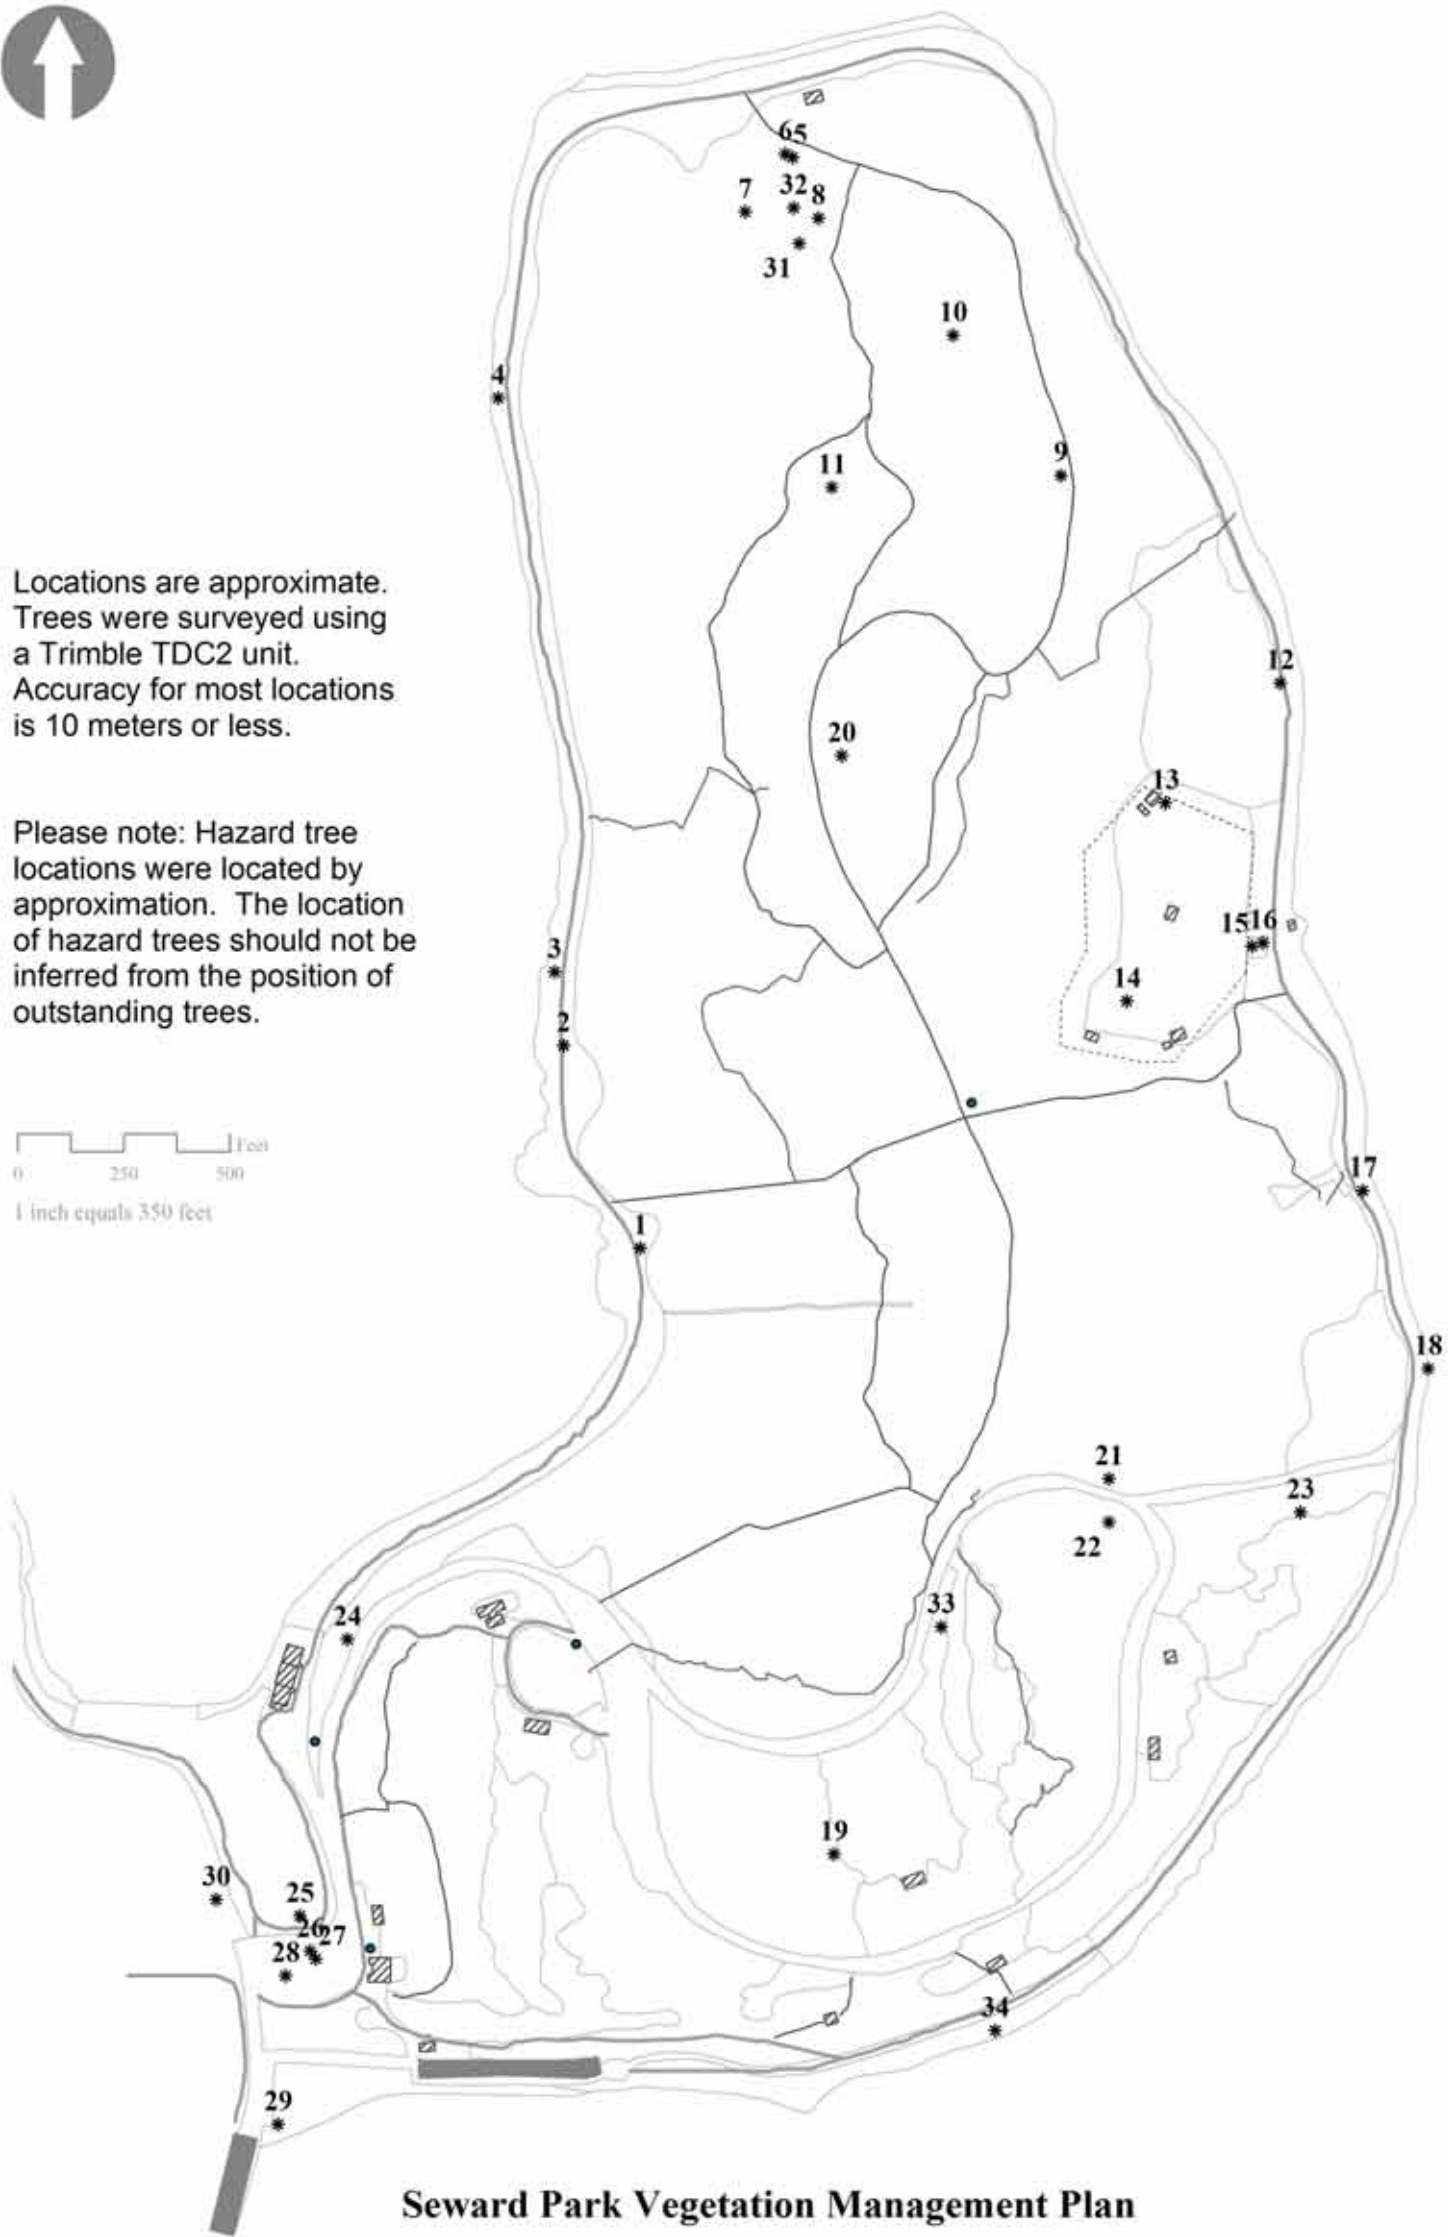

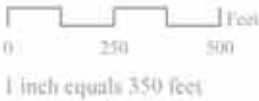

Seward Park Vegetative Management Plan

OUTSTANDING TREE 2005 PRELIMINARY SURVEY

Locations are approximate.
Trees were surveyed using
a Trimble TDC2 unit.
Accuracy for most locations
is 10 meters or less.

Please note: Hazard tree
locations were located by
approximation. The location
of hazard trees should not be
inferred from the position of
outstanding trees.
